

## SPECIFIC ADMISSION REQUIREMENTS FOR STUDENT EXCHANGE PROGRAMS 2016-2017

BCI – UQAM

Specific admission criteria were established for the programs listed in this document. The programs are indexed first by level of study (undergraduate and postgraduate) and then alphabetically. Exchange students can find all necessary and pertinent information to verify their admissibility at UQAM according to their desired program.

### PROGRAM SELECTION

- ✓ Some programs of studies at UQAM **are not open to exchange students**. Be certain to choose a curriculum that is part of the list of academic programs open to exchange students (*Programmes d'études ouverts aux étudiants en échange*) or your application will be rejected. The list of open programs is available on the BCI website.
- ✓ The candidate must identify **only one program of studies** from a list of programs open to exchange students. This list can be found on the BCI website.
- ✓ The candidate must then select courses from within the identified program. An application containing a course selection that does not conform to the program will be rejected.
- ✓ Candidates must continue their studies at their home institution in a discipline related to their program at UQAM.
- ✓ Certain programs have limited enrolment for exchange students. Please take note of the list of these programs in the present document.
- ✓ Certain programs are unable to accept students for the winter semester only. Other programs can only accept candidates for the fall semester or for the entire academic year only. Be sure to consider this when choosing your program at UQAM.
- ✓ Students who are accepted at UQAM must respect the calendar and arrive in Montreal before the semester begins. Please note that the Fall semester will begin on September 6<sup>th</sup>, 2016 and that the Winter semester will start on January 9<sup>th</sup>, 2017.
- ✓ Certain Master's programs require 16 years of schooling before participating in an exchange program with UQAM. The list of these programs can be found at the end of this document. Please note that engineering students must have obtained their diploma of engineering prior to their arrival at UQAM in order to be able to take graduate courses (master level). No admission based on a BAC+3 will be possible, unless the studies are validated by a diploma recognized by the National Ministry of Education.

## COURSE SELECTION

- ▶ Candidates must use the course selection form (*formulaire de choix de cours*) which can be found on the BCI website.
- ▶ The student must select courses from **only one academic program and at only one level** (undergraduate or post-graduate):
- ▶ The exchange student can only select courses from the academic program he or she has applied to.
- ▶ All courses identified as *ateliers* (workshops), *stages* (internships) or *séminaires d'intégration* (seminars) or *projet de mémoire* (thesis project) are not offered to exchange students.
- ▶ Information on curriculum, course descriptors and class schedules are available online :  
<http://www.etudier.uqam.ca/programmes>  
It is possible to search by program (using the program code) and then find the list of courses in the identified program of studies.
- ▶ Scheduling information for fall courses will be available in January and for winter courses in July.
- ▶ Course selection must respect the student exchange contract which stipulates that candidates must be registered full-time;
- ▶ The number of courses and/or credits required to be considered a full-time student is:
  - Undergraduate programs (certificates or Bachelor's) : a minimum 12 credits, generally four courses of three credits;
  - Graduate programs (Master's, DESS or Doctorate): a minimum of 6 credits, generally two courses of three credits ;
  - It is strongly recommended to select a few additional courses from the designated program in case of a scheduling conflict, a course not being offered during the chosen semester, or other.
- ▶ Each course selected must contain the following information: the course code, number , title and credits :
  - Example : LIT1430, *Questions de méthode en études littéraires*, 3 crédits

For your information, the University estimates each course credit to correspond to forty-five hours of academic activities, including evaluations.

## INTERNSHIPS AND RESEARCH SUPERVISION

**IMPORTANT** - Off-campus internships are not available for exchange students, and all research supervision must be assumed by the student's home institution.
